

It's Not A Lie It's A Secret

Lemuria

Let's fog up some more windows
Clutter up in the back of your rusty car
I'm a little nervous, I haven't done this in quite awhile
There's a lot of inches, receiving all those wonderful kisses
Things are falling right into place
I think I've been kissing
All those things I've been missing
I think I've been missing
Everything moving slow

I think I've been kissing
All those things I've been missing

Let's fog up some more windows
Clutter up in the back of your rusty car
I'm a little nervous, I haven't done this in quite awhile
There's a lot of inches, receiving all those wonderful kisses
Things are falling right into place
