Monday kills
Tuesday sucks
As always
So my week has begun

Someone stop me
The parachutes failing
I'm fed up

Tossing and turning
My life is on hold
I wait but
The line has gone cold

Come on and face me
Take me now that
It's your time to play
And you will

You befriend me
Bend me
Over and over again
And again

Again?

Breaking news
Feel my head exploding
Who will clean up the mess
Start the car
Could just run you over
I'm fed up

Running in circles
My life is on hold
I wait but
The lines is still cold

Come on and face me
Take me now that
It's your time to play

And you will

You befriend me
Bend me
Over and over again
And again

Please
Give me a break
What can I do?

Yes
I thing I should
Terminate
You you you you

Why don't you face me
Take me now that
It's your time to play
And you will

You befriend me
Bend me
Over and over again
And again

Come on and face me
Take me

Pam param pam
pam para pam

Over and over again

parapam parapam
