

# I Know

Lena Katina

I know I know  
I know where to go

I know I know  
I know where to go

I have forgotten what it's like to walk alone  
Running around at night to find another zone  
Imagination is the key that carries me  
No destination for me  
No destination for me

Predictability has allways been the same  
I wanna break it down  
I wanna break the chain  
Sometimes it feels like I am caught up in the mix  
Looking for a different place  
That I can get my kicks

Please stop making me stop  
I won't do what you tell me  
Can't be something I'm not  
Can't be where I don't wanna be

You can't hold me back  
You break me  
Please stop making me stop  
Can't be where I don't wanna be

I know I know  
I know where to go

I always wonder how to get from here to there  
It's getting closer million miles from anywhere  
Communication is reserved for yesterday  
I'm gettin ready to pay,  
I'm gonna have it my way

My motivation is to get the hell away  
As soon as seasons has prepared me for today  
Something is changing and my vision is coming clear  
I'm not a child anymore  
I run away from here

Please stop making me stop  
I won't do what you tell me  
Can't be something I'm not  
Can't be where I don't wanna be

You can't hold me back  
You break me  
Please stop making me stop  
Can't be where I don't wanna be

I know where to go
