

Lost In This Dance

Lena Katina

Don't know how it happened to us
But we're here again
The odds are stacked
We have to believe there's time
With the sun going down
Behind buildings surround it's like a tomb
I'm not giving up till
I find what I'm looking for....tonight

You and I must find each other
Even if I'm blind from glaring lights
Even if it takes all night
I'm lost in love with you
Do you know the way that I should turn
Do you know that I have learned
I'm lost in this dance with you

Making my way through the city streets
They're so rushed and loud
Passer-bys that resemble your face deceive
Pull your picture from my pocket
To remind myself, no need for clues
I keep on searching
It's you that I'm looking for...tonight

You and I must find each other
Even if I'm blind from glaring lights
Even if it takes all night
I'm lost in love with you
Do you know the way that I should turn
Do you know that I have learned

I can see that you can see a love that can't compare
Really isn't fair after all

Even if I'm blind from glaring lights
Even if it takes all night
I'm lost in love with you
Do you know the way that I should turn
Do you know that I have learned
I'm lost in love with you
Looking up and down and all around
Looking for what can't be found
I'm lost in love with you
Shadows on the wall appear to be
But shadows never what they seem
I'm lost in this dance with you
