## **Lost In This Dance**

Lena Katina

Don't know how it happened to us But we're here again The odds are stacked We have to believe there's time With the sun going down Behind buildings surround it's like a tomb I'm not giving up till I find what I'm looking for....tonight

You and I must find each other Even if I'm blind from glaring lights Even if it takes all night I'm lost in love with you Do you know the way that I should turn Do you know that I have learned I'm lost in this dance with you

Making my way through the city streets They're so rushed and loud Passer-bys that resemble your face deceive Pull your picture from my pocket To remind myself, no need for clues I keep on searching It's you that I'm looking for...tonight

You and I must find each other Even if I'm blind from glaring lights Even if it takes all night I'm lost in love with you Do you know the way that I should turn Do you know that I have learned

I can see that you can see a love that can't compare Really isn't fair after all

Even if I'm blind from glaring lights Even if it takes all night I'm lost in love with you Do you know the way that I should turn Do you know that I have learned I'm lost in love with you Looking up and down and all around Looking for what can't be found I'm lost in love with you Shadows on the wall appear to be But shadows never what they seem I'm lost in this dance with you
