

I Just Want Your Kiss

Lena

You used to take me out
Just for strolling in the park

You used to be around
When I was feeling down

You used to get my right
Kept me safe all through the night

But let me tell you the truth
This is not what I want from you

I tell you
I don't miss you sweet sweet smile
Because I can do without it for a while
But all you could do me for a little time

Oh, I don't want no kitty cat
Or the roses you left on my bed
Belive there's no need for this
Cause I just want you kiss

You used to keep me up
When I was running out of luck
You used to cool me down
With you smoot and gentle sound
You used do make me laugh
Cured the sorrows from the past

I tell you
I don't miss you sweet sweet smile
Because I can do without it for a while
But all you could do me for a little time

Oh, I don't want no kitty cat...

You could never get for one night
If you want do do me right
Better listen to me now

If you want to stay close by my side
You can join me on the flight
And I'm gonna tell you how

I tell you...

Oh, I don't want no kitty cat...
