

## Come Home

Lene Marlin

I just want to lock the door  
Leave it all outside  
Turn off all the lights  
I just want to hide  
Don't bother look for me  
Not even sure that you would  
So I don't have to tell  
I'm not feeling well these days

Just give me directions  
I'll go anywhere  
I need to find something  
I cannot find here  
Just give me a chance  
And I'll prove that you're wrong  
I'll manage so fine  
I can be strong  
And maybe I wanna come home  
Then maybe I wanna come home

I just want to stay in bed  
Stay right here for now  
Left here with my thoughts  
I don't know how  
How to face another day  
I'm not ready for it yet  
So I don't have to show  
That I'm not okay this way

Just give me directions  
I'll go anywhere  
I need to find something  
I cannot find here  
Just give me a chance  
And I'll prove that you're wrong  
I'll manage so fine  
I can be strong  
And maybe I wanna come home  
Then maybe I wanna come home
