

Come Home

Lene Marlin

I just want to lock the door
Leave it all outside
Turn off all the lights
I just want to hide
Don't bother look for me
Not even sure that you would
So I don't have to tell
I'm not feeling well these days

Just give me directions
I'll go anywhere
I need to find something
I cannot find here
Just give me a chance
And I'll prove that you're wrong
I'll manage so fine
I can be strong
And maybe I wanna come home
Then maybe I wanna come home

I just want to stay in bed
Stay right here for now
Left here with my thoughts
I don't know how
How to face another day
I'm not ready for it yet
So I don't have to show
That I'm not okay this way

Just give me directions
I'll go anywhere
I need to find something
I cannot find here
Just give me a chance
And I'll prove that you're wrong
I'll manage so fine
I can be strong
And maybe I wanna come home
Then maybe I wanna come home
