

Story of a Life

Lene Marlin

I wonder who she comes home to if anyone
I wonder if she's in love if there is someone
By the look on her face I can't figure it out
If there's people at all she cannot live without
I wonder what's in their future
If they met just now
The way they look at each other
Like they don't know how
They could be this lucky as never before
They doubted they'd find love
Well not anymore

How we'd wish to know sometimes
If what we're thinking happens to be true
How we'd wish to know sometimes
The story of a life
I wish I knew
The story of a life
I wish I knew

The little boy with just socks on too small to walk
I wonder what he'd say to me if he could talk
Would he ask me to be kind to take him away
Cos his parents are yelling and fighting all day

How we'd wish to know sometimes
If what we're thinking happens to be true
How we'd wish to know sometimes
The story of a life
I wish I knew
The story of a life
I wish I knew
