

## Strawberry skies

Lenka Filipová

Never had a reason to believe in  
or a chance I couldn't blow  
never had a car I couldn't sleep in  
I'm just another rolling stone

I got a little pocket full of feathers  
and I'm still working on my wings  
and when I find that open window  
man this bird is gonna sing

Under strawberry skies  
with the sun setting low  
under strawberry skies  
I know someday yeah  
I'm gonna fly back home

I seen a loota people lookin' lonely  
ya gotta learn to have some fun  
take a look around and smile slowly  
laugh and sing a little song
