

Butterfly

Lenny Kravitz

You are the most beautiful thing I've ever seen
You shine just like sun that rains on the winter snow
I just had to...tell you so
Your eyes sparkle as the stars, like the moon that glows
Your smile could light the world on fire...or did you know
Your mind's full of everything that I wanna know
I just had to let you know
I just had to tell you so
You're my butterfly...flyin' high
Flyin' high...fly, fly, fly...
