

# I'll Always Be Inside Your Soul

Lenny Kravitz

I'm gonna be where you go  
I'm in your eyes  
I'm gonna see the things you know  
I'm in your mind  
Just like a tree I'll watch you grow  
There is no time  
I'll always be inside your soul

On a starry night so magical  
Through a storm in dead of winter  
Lying in a field of marigolds  
Just when you're looking out a window

I'm gonna be where you go  
I'm in your eyes  
I'm gonna see the things you know  
I'm in your mind  
Just like a tree I'll watch you grow  
There is no time  
I'll always be inside your soul

When you're falling from the sky above  
On a journey down to Peru  
Can you feel that I am with you love?  
Just know that I'm right there with you

I'm gonna be where you go  
I'm in your eyes  
I'm gonna see the things you know  
I'm in your mind  
Just like a tree I'll watch you grow  
There is no time  
I'll always be inside your soul

I'm gonna be where you go  
I'm in your eyes  
I'm gonna see the things you know  
I'm in your mind  
Just like a tree I'll watch you grow  
There is no time  
I'll always be inside your soul

I'm gonna be where you go  
(Gonna be only you, come back, cause this love's no game)  
I'm in your eyes  
I'm gonna see the things you know  
(But the future, present, or past, it is all the same)  
I'm in your mind  
Just like a tree I'll watch you grow  
(Gonna be only you, come back, cause this love's no game)  
There is no time  
I'll always be inside your soul  
(But the future, present, or past, it is all the same)

I'm gonna be where you go  
(Gonna be only you, come back, cause this love's no game)  
I'm in your eyes

I'm gonna see the things you know  
(But the future, present, or past, it is all the same)  
I'm in your mind  
Just like a tree I'll watch you grow  
(Gonna be only you, come back, cause this love's no game)  
There is no time  
I'll always be inside your soul  
(But the future, present, or past, it is all the same)
