

# Life Ain't Ever Been Better Than It Is Now

Lenny Kravitz

I woke up this morning feeling  
Thankful and grateful  
So I got a little something that I want to say  
You know like a little prayer  
Thank you  
Thank you God that I am able  
Got my shelter and food on the table  
Got my health, don't need no pride  
'Cause everything I need you gave me inside  
Life ain't ever been better than it is now  
I ain't lonely, I'm by myself  
'Cause when you got the lord you got all the wealth  
Check me out I am sailing  
It's my time and there's no way than I'm failing  
Life ain't ever been better than it is now

I know the world is really crazy  
But that's the time we got to stop being lazy  
We got to stand, stand up for what's right  
We got to separate the darkness from the light  
Life ain't ever been better than it is now  
Life ain't ever been better than it is now  
Rob from Always on the run is bad bad bad

Blow Shorty !

I've seen the world, I've seen it all  
We're headed for the wall and we're gonna fall  
Like the days way back in Rome  
We're stepping right inside of the danger zone  
But life ain't ever been better than it is now  
Life ain't ever been better than it is now

You see people come and people go  
And people always get just what they saw  
But I believe in this thing called love  
And our ability to rise above  
Life ain't ever been better than it is now  
Life ain't ever been better than it is now

Life ain't ever been better  
Life ain't ever been better  
Life ain't ever been better than it is now

Oh alright now  
It's warfare out there  
So we got to suit up and put on our armour  
Headed for the frontline  
It's gonna be alright  
It's gonna be alright  
Just stay thankful and grateful  
Doing it like James Brown  
James Brown
