All I have
And all I do
Cannot compare
To the love of you

You make me feel alive You are my highest high All I can do is smile When I look in my little girl's eyes

When I look in my little girl's eyes [4x] You're my star And when I'm far You're not alone

'Cause your heart's my home
You are my biggest prize
So beautiful and so wise
I can see the woman from within my child

When I look in my little girl's eyes
When I look in my little girl's eyes [4x]
You make me feel alive
And you are my highest high

All I want to do when I come into the room is see her smile When I look in my little girl's eyes When I look in my little girl's eyes [4x]
