

# Raise Vibration

Lenny Kravitz

Hold your hands up  
Hold your head up  
To the painted sky  
Breathe in spirit  
You can feel it  
Let your ego die  
Be a vessel  
Never settle  
For the status quo  
Love will lead us  
And complete us  
This is what I know

We've got to raise vibration  
Wake up and raise vibration  
We've got to raise vibration  
Wake up and raise vibration

Just like Jesus  
As he teach us  
Do it like the Lord  
Just how Martin  
Got it startin'  
And without a sword  
Just as Gandhi  
Went to war  
And never used a gun  
We can join together  
And through love we'll get it done

We've got to raise vibration  
Wake up and raise vibration  
We've got to raise vibration  
Wake up and raise vibration

We've got to raise vibration  
Wake up and raise vibration  
We've got to raise vibration  
Wake up and raise vibration

Raise  
Raise vibration  
Raise  
Raise vibration  
We've got to raise, oh yeah  
Raise vibration  
Raise, oh raise  
Raise vibration  
We've got to raise, oh raise  
Raise vibration
