

# Ride

Lenny Kravitz

When I look into your spirit  
And the spirit never lies  
There's a feeling that I can't explain  
Deep inside, deep inside

Feels like I've known you forever  
Since the origin of time  
I've been with you in eternity  
In my mind, in my mind

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

You and I on Earth together  
Can't you see it's no surprise  
I know it from the first second babe  
As I looked in your eyes

I could only dream of heaven  
When I gaze into the sky  
But I know I found my angel here  
In this life, in this life

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride  
We will ride

(Ride, ride)  
Ride, ride, ride, ride, ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love

Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride  
I have loved you since the dawn my love  
Through the storm my love we will ride

I have loved you since the dawn my love  
Through the storm my love we will ride
