

The Majesty of Love

Lenny Kravitz

I am searching
So hard searching
I am searching for the majesty of love
I am searching
So hard searching
I am searching for the majesty of love

I feel the spirit coming right over me
It's an unexplainable high
And the only place that I wanna be
Is with you right under the sky

I am searching
So hard searching
I am searching for the majesty of love
I am searching
So hard searching
I am searching for the majesty of love

When my faith is tested beyond my eyes
Confirmation's leading the blind
Take me down to where the peaceful waters flow
So I can be at peace of my mind

I am searching
So hard searching
I am searching for the majesty of love
I am searching
So hard searching
I am searching for the majesty of love

Searching, searching
Searching, searching
Searching, searching
Searching, searching
I am searching

I am searching
So hard searching
I am searching for the majesty of love
I am searching
So hard searching
I am searching for the majesty of love

I am searching
So hard searching
I am searching for the majesty of love
I am searching
So hard searching
I am searching for the majesty of love

Searching, searching
Searching, searching
Searching, searching
Searching, searching
I am searching

Searching, searching
Searching...
