

# The Pleasure and the Pain

Lenny Kravitz

It's been a while ince you've come around  
I missed you so  
You know you broke me down  
Are we ready to give it one more try?

While you were gone  
I tried to mend my heart  
But I didn't know even where to start  
I'd rather be with you even when we fight

I'll take all you offer  
Because it's all the same  
The thorn with the flower  
The pleasure and the pain  
I'll climb up that mountain  
Because it's you I gain  
I can't live without it  
The pleasure and the pain

I love the way that you keep it real  
You're not afraid to tell me the deal  
And you tell me when I'm wrong  
When I'm trippin' out  
'Cause a man like me needs a woman who  
Will walk the walk and is a warrior too  
But with that comes the truth  
And there is no doubt that

I'll take all you offer  
Because it's all the same  
The thorn with the flower  
The pleasure and the pain  
I'll climb up that mountains  
Because it's you I gain  
I can't live without it  
The pleasure and the pain

I think this time we can make it through  
I'll still be me and you'll still be you  
The only difference will be within our minds  
I'll take all you offer  
Because it's all the same  
The thorn with the flower  
The pleasure and the pain  
I'll climb up that mountain  
Because it's you I gain  
I can't live without it  
The pleasure and the pain

I'll take all you offer  
Because it's all the same  
The thorn with the flower  
The pleasure and the pain  
I'll climb up that mountains  
Because it's you I gain  
I can't live without it  
The pleasure and the pain

I'll take all you offer  
Because it's all the same  
The thorn with the flower  
The pleasure and the pain  
I'll climb up that mountain  
Because it's you I gain  
I can't live without it  
The pleasure and the pain
