

## Hearts

Lenny

Before the light comes in, I want to feel your love  
How it turns bittersweet  
Am I still the one you're thinking of?  
Before the light comes in, just let me know you're near  
And if you love on me, you always find me here

'Cause without you, I'm lost  
'Cause without you, without you, I'm lost

Before the light comes in, I want to sense your touch  
And even though I know just a little of you  
I'm missing you so much  
Before the light comes in, out heartbeats ??  
I wish I knew you well, though we never had the time

'Cause without you, I'm lost, yeah  
'Cause without you, without you, I'm lost  
'Cause without you, without you, baby, no  
Without you, without you, I'm lost

Before the light comes in, I want you by my side  
And I give everything to bring you back to life

Without you, without you, baby, no  
Without you, without you, I'm lost
