

Letter To You

Lenny

1. Hello dear friend
Now I know you so much better
I hope you'll get the message
You will read the letter
2. And if it's alright
I will start from the beginning
The day you caught my heart
Got the whole world spinning
3. We were one of a kind
I was the artist, you the mastermind
Two strangers walking
in the same direction
4. You're still the one
You're the king of hearts, the winner
And I am just a lonely soul,
a sinner
- *: So would you take a chance right now?
Would you make a step, come over here
Just like I always thought you would
You would wanna be closer than near
... But you don't.
- R: So are you feeling alright, are you feeling O.K.?
Never mind the time, never mind the space
And if I'm here for you, are you there for me?
If I see what I want to see, will you still be a part of me?
5. I still see the light
When you filled my heart's desire
But you were walking on water
And I was on fire
6. And after the flood
You stood strong and I was broken
Your chest untouched
And mine - wide open
- *:

R:
Are you feeling alright?
I'll write a letter to you, If you want me to.
