

# You Are My Everything

Lenny

Can you hear me?  
I'll say what's been said before  
A million times and even more

You see me  
That look on your face  
And your eyes sign the grace

And that's when I come to realize  
Forever wanna see myself in your eyes

I've known you  
So long can't even count the years  
The days the nights and all those tears

I need you  
Just incase I've never said these pretty words before

Because every time you're closer than near  
Things become so clear

You're my everything  
You are my everything  
It's easy to show but I want you to know  
It's easy to say so but you have to know  
You're my everything.

Please forgive me  
I think I stole your heart  
But I just want to be a part of you

Don't leave me  
Together it's forever  
There's no never, so I say

If you'd only want to be mine  
I could tell you one more time

You're my everything  
You're my everything  
It's easy to show but I want you to know  
Yes it's easy to say so but you have to know

You're my everything  
You are my everything  
My love is so strong I know where I belong  
And I never knew how but I guess I know now

You're my everything  
You're my everything  
You're my everything

Please believe me  
You're my light and I can't see without you anymore.
