## **Another Time**

Another time, love You know I can't quite recognise your face, love Although I feel I know you from someplace, love Another time, love -- but not now

Another face, love I'm sure I know the voice, but not the face, love I know you think I know you but then you're wrong, love I don't know, love, who I am

Y'see I'm lost... And I don't know who I am

Another town, love Tomorrow night I play another town, love The show keeps rolling on and so it goes, love I don't know, love where I'm bound

I must be going now I'm sorry I'm unsure I must be going now Maybe we'll meet again Another time, love -- another town -- another place

Y'see I'm lost And I don't know who I am
