

Drop Back

Leo Sayer

You hold my life in your hands
You build me as if I were a king
Your heart does not understand
I give you my everything
Oh the night that started with wine
Is ending just like it was a dream
I held her glove in my hand
I gave her my everything

Drop back
She said to me go back
Drop back
I fail to see why I
Should drop back

I held the cards in my hand
They fooled me just a pack of lies
It seems they wrecked all my plans
God knows how I really tried
Oh that night that started with wine
It's ending just like it was a dream
I hold her glove in my hand
I gave her my everything

Drop back
She said to me go back
Drop back
I fail to see why I
Should drop back

(solo)

Drop back
She said to me go back
Drop back
I fail to see why I
Should drop back
