## **Everything I've Got**

Leo Sayer

I never worry I never fret 'Cos when I got you on my side you can bet I got it all, I'm standing so tall And when I hold you in my arms You know I'll never let you fall When trouble comes to call I would give you everything I've got Don't you know You know that I will love you a lot Never let you go Don't need nobody Want nobody but you Time's gonna come We'll be put to the test And you and me girl We won't be like the rest We'll see it through Just me and you And when they ask us We will say it's been tried and it's still true We're still shinin' through I would give you everything I've got Don't you know You know that I will love you a lot Never let you go Don't need nobody Want nobody but you (solo) I would give you everything I've got Everything I got You know what I would love you Love you a lot Don't need nobody Need no one but you No one but you

Everything I got

Don't you know

You know that I would love you Love you a lot Don't need nobody Need no one but you

No one but you
