

# How Much Love

Leo Sayer

How much love do you need  
Before you give your love to me  
How much time before it grows  
How much love I wanna know

What can I do  
What can I say  
The last thing I want  
Is to drive you away  
How much love does it take  
How much love for heaven sake

How much love, how much love  
Do I rush right in or do I hesitate  
How much love, how much love  
How much love

Am I tryin' too hard  
Give me some kind of clue  
There must be a way to get through to you  
Should I come on strong or do I hesitate  
Do I rush right in or do I wait

How much love, how much love  
Do I rush right in or do I hesitate  
How much love, how much love  
How much love

I've got so much love  
Don't know where to begin  
I'm pleadin' with you babe  
You gotta let me in

How much love, how much love  
How much love

I've got so much love  
Don't know where to begin  
I'm pleadin' with you babe  
You gotta let me in

How much love do you need  
Before you give your love to me  
Should I come on strong or do I hesitate  
Do I rush right in or should I wait  
How much love, how much love  
Do I rush right in or do I hesitate  
How much love, how much love  
How much love  
How much love  
How much love
