

# I Never Knew

Leo Sayer

I never knew nobody  
Who loved me better than the way you do  
I never knew no-one like you

I never knew this feeling  
I never trusted no-one in my life  
But I know with you it's right

'Cos baby you're there  
When I need you  
Baby you're there  
If I'm blue  
And I know that I'm blessed  
I can only confess  
That there's so much that I never knew

I never knew how happy  
I could be with you here by my side  
As I look at you tonight

All day I'm just dreaming  
That's all that I do  
Can't wait for the hours  
That I spend with you

I never knew nobody  
Who loved me better than the way you do  
But there's so much I never knew  
No there's so much I never knew  
There's so much I never - knew...
