

It's Over

Leo Sayer

Last night I realized
There's no point in compromise
I guess it's time we said it's over
'Cos I been watchin' you
Searchin' for something' new
Go find it now 'cos it's all over
What's the sense in bitterness
It only leads to emptiness
I thought that we'd find happiness
But we've run out of track and we won't get it back
'Cos it's over, it's all over
It's all over, it's over
I'm gonna have to live with this
The one thing that I will miss
Is coming to you when my day is over
I'll come home to loneliness
My life all in a mess
Just wishing we were never over
You read about it every day
Another love has gone astray
But who would think we'd end this way
We've run out of track and we won't get it back
And it's over, it's all over
It's over, it's all over
I remember when you said to me
Take care when you share your love
Before you give it all so easily
Be sure that you can give enough
Look what happened to us
It's all over, it's over
Over, it's all over
It's all over, it's all over
We've run out of track and we won't get back
'Cos it's over
No more me, no more you
It's over
It's all over
