I think of this most every night How hard it is just to get it all right I'm looking here and I'm lookin' there I see a heart broken Pieces everywhere Wouldn't you try and wouldn't you know You try so hard still to let it all go Too much trouble and too much pain I think I'm gonna have that luck again What'll I do if you walk away What'll I do if you walk away Well I haven't a chance No I haven't a chance Once in a while I get this feeling Now and again I'm all in a daze Time after time I ask myself this Will you walk away Once in a while I get this feeling A crazy notion - A careless thought I start to worry and time gets short We'll think if this my dear young one The time to act has just begun What'll I do if you walk away What'll I do if you walk away Well I haven't a chance No I haven't a chance Once in a while I get this feeling Now and again I'm all in a daze Time after time I ask myself this Will you walk away Once in a while I get this feeling Once in a while I get this feeling Now and again I'm all in a daze Time after time I ask myself this Will you walk away
