

Please Don't Walk Away

Leo Sayer

I was driving home late last night
When I heard the phone
It's my baby callin' says I need you here
How soon can you make it home

Well I pulled into the drive
Not knowing what to expect
She said I been talking to my girlfriends
They've been making a lot of sense

I need a little time alone
I need to take a break
I don't need no pressure in my life
I think I made a big mistake

I said what's that baby...?

Please don't walk away
Don't make me say
I'm just no good without you
I got a busted heart
It's been torn apart
And it won't work without you

Well we've been close for six good years
And she's the kind of girl
Makes you forget your fears
I was lonely before I met her
Don't wanna be lonely again
Hangin around some singles bar
Looking for a new best friend

So, please don't walk away
Don't make me say
I'm just no good without you
I got a busted heart
It's been torn apart
And it won't work without you now...

Not now, not now...
