

We've Got Ourselves in Love

Leo Sayer

We were just friend's babe
But love came on too strong
We could not stop
What we knew was wrong
We meet in this hotel
To hide from prying eyes
Nobody knows
About our secret life
We've got ourselves in love babe
We've got ourselves in love
What are we going to do about us
We're so much in love
We got ourselves in love girl
We've got ourselves in love
Nothin' we can do about us
Being in love
Oh we're so much in love

Don't talk in my sleep babe
I don't repeat your name
But somehow she knows
That we're playing games
So we talk in whispers
And plan out getaway
We've got to make our move
Before it's too late
We've got ourselves in love girl
We got ourselves in love
What are we going to do about us
We're so much in love
We've got ourselves in love babe
We've got ourselves in love
Nothin' they can do
My conscience says
That you and I should stay as friends
My heart pretends, oh baby
With you my life can start again
Got ourselves in love babe
We've got ourselves in love
There's nothin' they can do about us
Being in love
We got ourselves in love
We've got ourselves in love
And I know we'll pull through
Just being in love
