

# World Keeps on Turning

Leo Sayer

Ooh, can't you see  
The days are rollin' by  
The things I read about the world outside  
Don't seem to matter now you're here tonight  
Hold me, love's callin', hold me if you can  
The world just keeps on turning  
It don't mean a thing to me  
Long as I'm with you, babe  
There's nothin' that I need  
World just keeps on turning  
But your lovin' stays the same  
Long as I got you, babe  
The world can roll away  
Ooh, can you feel it  
Now we're a million miles away  
The world looks oh so small from up here, baby  
And that's the way it's gonna stay  
Hold on, love's callin', hold on if you can  
The world just keeps turning  
Don't mean a thing to me  
Long as I'm with you, babe  
There's nothin' that I need  
World just keeps on turning  
But your lovin' stays the same  
Long as I got you, babe  
The world can roll away

(solo)

Oh, it's you and me, baby  
Lost in our lovin' dreams  
No one to tell us what we should or shouldn't do  
This time life is more than it seems  
Hold on, love's callin', hold on if you can

(solo)

World just keeps on turning  
Don't mean a thing to me  
Long as I'm with you, babe  
There's nothin' that I need  
The world just keeps on turning  
But your loving stays the same  
Long as I got you, babe  
World can roll away  
Because the world  
Just keeps on turning'  
The world just keeps on turnin'  
Ah, ah, ah, ah, ah, ah, ah, ah
