

World Radio

Leo Sayer

I am the voice
I am the radio
You hear me loud and clear
Across the open sky
Into the night
You hear me loud and clear
I was thinking you're a part of my mind
Breathing sleeping talking two of a kind
I'm the voice in your head
(do you read me)
The word you just said
(do you hear me)
Aah - the world goes spinning around
Aah - and you all join in with the sound
Aah - we sing with one voice
Like a world radio
Aah - we sing with one voice

Like a world radio
I feel the pain
I feel the joy and love
You hear it loud and clear
But should the music stop
I'll feel so low
I'll fade and disappear
I'm just thinking that we're two of a kind
Think I know what's going on in your mind
When the red light goes on
(can you tell me)
Is your green light still on
(do you hear me)
Aah - the world goes spinning around
Aah - and you all join in with the sound
Aah - we sing with one voice
We're a world radio
Aah - we sing with one voice
We're a world radio
The world goes spinning around
Aah - we all join in with the sound
Aah - we sing with one voice
Like a world radio
We join in with the sound
The world goes spinning, spinning around
Aah - we sing with one voice
We're a world radio

(solo)

Aah - we sing with one voice
We're a world radio
Radio
Is the green light on
(can you tell me)
Don't put your red light on
(do you read me)
I know the green light's on
Don't put, don't put your red light on

Is the green light on
