

You Thrill Me

Leo Sayer

You were born to be free
You were born to be wild
You were born from the wind
Like a motherless child
When you fell from a star
You fell just in time
You fell just for me
I knew you'd be mine

You thrill me
You make me feel life is worth living for
You thrill me the most
Nobody - nobody - nobody
Loves me like you

There's a place in my heart
There's a place just for you
There's a place where I go
Where my dreams all come true
And I don't need the dark
And I don't need the light
And I don't need nobody else
With you I'm alive

You thrill me
You make me feel life is worth living for
You thrill me the most
Nobody - nobody - nobody
Loves me like you
Loves me like you
Loves me like you

I never had a lonely day
Since I held you in my arms
I'll never ever let you go away
With you I'm in heaven

'cos You thrill me
You make me feel life is worth living for
You thrill me the most
Nobody - nobody - nobody
Loves me like you
Loves me like you
Loves me like you
Loves me like you
