

## Right Now

Leon Jackson

Right now let me take you by the hand  
Right now put your lips at my command  
Right now fly me off to lover's land

Baby, don't you leave me at the post  
Kiss me, you can feel it coast to coast  
Right now baby, need your love the most

You have set my soul on fire  
Only you can satisfy this great desire

Right now let the fool world break in two  
Right now stars can tumble from the blue  
Right now just as long as I'm with you

Right now it's the time and it's the place  
Right now for a ride to outer space  
Right now let me have that wild embrace

You have set my soul on fire  
Only you can satisfy this great desire

One time let the wine of love flow free  
Right now be the lover you can be  
Right now come and give yourself to me
