

# Alive

Leona Lewis

I breathe, I hear  
But I don't believe it  
My heart, it beats  
But inside I'm freezing  
My hands shake  
They've lost all their feeling  
Nowhere to take  
You say that you're leaving  
And there's no turning  
back this time  
Gotta stay alive

Where do I go when I'm so alone?  
Where do I turn when  
you are so close?  
We try not to crash but  
we still collide  
Tears I've cried, I'll survive  
I'm alive

I'm stripped, I'm bare  
I'm left here with nothing  
I hold the wheel  
And know where I'm going  
Your face, I see, in  
every reflection  
No time, no space  
I've lost all direction  
And there's no turning  
back this time  
Gotta stay alive

Where do I go when I'm so alone?  
Where do I turn when  
you are so close?  
We try not to crash but  
we still collide  
Tears I've cried, I'll survive  
I'm alive

I'm gonna get there someday  
Through all the tears  
that you bring  
And any road I can take  
Just to get me some place  
Where all the stars on my heart  
And all the lies in the dark  
Disappear in my head

Lights so bright, tonight  
Gonna drive them away

Where do I go when I'm so alone?  
Where do I turn when  
you are so close?  
We try not to crash but  
we still collide

Tears I've cried, I'll survive  
I'm alive  
I'm Alive
