Naked

Leona Lewis

You could've left me on a Friday Would've loved to at least had the weekend To go under, and to stay under, tto get better, and to stay better

But you had to pick a Monday Now I gotta go to work and get through five days And get through it, if I can do it, no, I can't do it

There's a heart breaking chill running through my bones Got my clothes but I can't really feel 'em on Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere Covered up but I'm still watchin' people stare Oh no, now what can I do? I'm naked, I'm naked without you

Try to focus, to go unnoticed But the harder I try to stay dry it rains And I can't do it, no, they see through it, yeah they see throu gh it

There's a heart breaking chill running through my bones Got my clothes but I can't really feel 'em on Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere Covered up but I'm still watchin' people stare Oh no, now what can I do? I'm naked, I'm naked without you

Inside I'm still hiding, outside I'm just too exposed But I know that I should let go, but I miss you

There's a heart breaking chill running through my bones Got my clothes but I can't really feel 'em on Oh no, whatever I do, I'm naked, I'm naked without you Can't go out, can't go home, can't go anywhere Covered up but I'm still watchin' people stare Oh no, now what can I do? I'm naked, I'm naked, I'm naked Now what can I do? I'm naked, I'm naked without you
