

# Calling

Leona Naess

Roll the carpet and pour out the wine  
Treat me like it's your first valentine  
'Cause honey baby, you've been on my mind  
Like all of us who have waited for a time

I'm calling can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest

Who knows what I really will hear?  
What I really will say?  
What I really will feel?  
Who knows what you really will hear?  
What you really will say?  
What you really will feel?

Wall the papers and call your friends  
No longer, do we have to pretend?  
'Cause honey baby, you've been on my mind  
Like all of us who have waited for a time, oh

I'm callin' can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest

Who knows what I really will hear?  
What I really will say?  
What I really will feel?  
Who knows what you really will hear?  
What you really will say?  
What you really will feel?

Quicken your beatin' drums and  
Draw me some wild fires, oh

I'm callin' can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest

Who knows what I really will hear?  
What I really will say?  
What I really will feel?  
Who knows what you really will hear?  
What you really will say?  
What you really will feel?

I'm callin' can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest

Who knows what I really will hear?  
What I really will say?  
What I really will feel?

Who knows what you really will hear?  
What you really will say?  
What you really will feel?

I'm callin' can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest

Who knows what I really will hear?  
What I really will say?  
What I really will feel?  
Who knows what you really will hear?  
What you really will say?  
What you really will feel?

I'm callin' can you hear me?  
The angels will steer me  
To your door, feel so sure  
The nite is the brightest
