

## Don't Look Back

Leona Naess

Don't use my broken heart, to pick up other girls  
You know as well as I do  
Should I remind  
Yours is broken too  
So smile through your days  
And believe in what the papers say  
You know as well as I do  
Should I remind  
Nothing is sad as a man with bells on his shoes

Don't look back  
Don't look down  
Stay real still  
I'm not around

Don't use the records I've played you  
To seduce and reduce what remains  
You know as well as I do  
They only will remind  
That you'll never have this heart again

Don't look back  
Don't look down  
Stay real still  
I'm not around

Halloween  
It was you that kissed me  
Its where it begun and all ended for me

And I loved you before you were king  
Of all the money that was rolling in  
And I was just a child and I was running wild  
But I only ran wild for you

Don't look back  
Don't look down  
Stay real still  
I'm not around  
(Repeat 2x)
