Treasure the day
It won't return
Step away and let it burn

Flip a coin
Don't abide
Friends will change you on each side

Feel the water Tender embrace Cover Hidden trace

Witness the details Lead to your goal See how the formula Turns to coal

Set free the tension Steer back the wheels Turn around See how it feels

Way below
Base of your soul
Realize everything
Playing a role

Watch it burn Even though you fear It might just turn Into more coal
