

## Foe

Leprous

Reduced into tears  
Cold winter gust  
My disease  
Your time to shine

Since the start  
Upholding the trust  
Search your heart  
It is mine

Urgent and unaccidental  
Broken foe in my sight  
Structural  
Sentimental  
Hard to see  
Clear and bright

Innocence bleeding  
Sudden, foreseen  
Dismounting heathen  
Stagnating seed in

Lawless you say  
Directions still unknown  
Go down this way  
You're on your own
