

Lower

Leprous

Lower
Further
I still believe in sunrise
Yet I shall walk through the endless fog

Stumbling ahead
Again around in circles
Underneath the skin
There's no desire

Moon and Sun might rise
Behind this curtain of smoke
Release your past and guilt
The hope will slow you down

Forget the tears of joy
Walk towards oblivion
Hear the resonance
Of my steps in the ashes

Lower
Yet I shall walk
Lower

All I know
Collapsed
Vanished
Irreversible
Burnt in flames of greed and disregard

When we couldn't seize
The surrounding beauty
To the ground we fell
We hid and now we crawl
