

## Stuck

Leprous

Reborn with shining dreams  
A spark of childish hope  
Glory to see  
Headed for the top  
With no safety rope

Afraid to turn around  
Forcing me to grow  
Finishing aim  
Only time will tell

Clinging to a shaky line  
Insecure about what I will see  
Mouthing the unstable beat  
It's overwhelming me

But I am stuck on mountains  
Mountains of doubt  
I am stuck on mountains  
Mountains of empathy

The end is near to what I sought  
The goal has turned to dreams I fought  
My image changing silently  
The way back down is turning steep  
How do I stay away from self-pity  
And back to sleep

Where did I go

I am stuck on mountains

I am stuck on mountains  
Mountains of doubt  
I am stuck on mountains  
Mountains of empathy  
I am stuck on mountains  
Mountains of doubt  
I am stuck on mountains  
Mountains of empathy
