

The Great Beast

Leprous

God, I hate it!
Please, take it away

I can't take it!
Hear what I say

Wolf behind me!
Kill it, kill it

I'm behind him!
Kill me, kill me

Walking down nameless streets
Sweat dripping from unused sheets
I will wake when you drown
I will follow you down

I watch the sunrise fail
Overhead the sky turn pale
I will sleep when you're high
Someone sucked your life dry

Strip it down to the core
It won't hurt me anymore
Cold water all around
If it bites, make a sound

Wolf scraping on your door
Hide from its gruesome roar
Wake up in water cold
This love won't grow old

Fight for a glimpse of light
Sleep this eternal night
Someone sucked your life dry
I will laugh when you cry

Save me from this great beast
Give me your hand at least
Kill it, I can't take it!
Kill me, I've been bit...
