

# Do I Kill You

Les Humphries Singers

Gonna die shotgun  
knives and pistols by your side.  
Thank your lucky stars you're still alive  
you're alive.  
Wo-Wo-. But when I count to three do I kill you  
Or do you kill me

Do I kill you  
do you kill me  
I wonder which way  
It's gonna be  
make up your mind about  
What ya gonna do do  
I kill you  
do you kill me. I wonder which way it's  
Gonna be  
take a little time  
about what ya gonna do

It's time funny the way things turn out in the end  
Took me all these years to find a friend  
fine friend  
Wo-Wo-. That you turned out to be  
do I kill you  
Or do you kill me

Goodbye All the friends you had are dead and gone

It would be a shame if you lived on  
all alone  
wo-wo . . .  
Without their company  
do I kill you  
or do you kill me.
