

Temperature Rising

Les Nubians

There's no emotions that make me feel this way
There's no emotions so bright to soothe a pain
How could it be so strong ?
Coz' when the time has come to escape from the storm
Just a little bit of this makes you feel so excited
You'd better pass it on
Before you're too stoned.

Natural Nubian Vibes
Feelin' so high
Temperature rising
Makes me feel so Irie
Temperature rising

Feel so free and special
When the smoky notes fall down on my head and heart
It is so real
Wishing it'll last forever
Coz' I just can't stop this rythm enchantment

Feelin' high
So high
Temperature rising
Makes me feel so Irie
Temperature rising

Ain't no way to stop this voodoo charm
From your left to your, right just pass it on

Feelin' so high
Temperature rising
Makes me feel so Irie
Temperature rising

Hey, Hey
Feel high
Throw your hands up in the sky
Move on side to side
De gauche à droite
Rising.
