

# California Nights

Lesley Gore

Along the sand  
Let's walk the shores together now  
Yes hand in hand  
It's gonna be fair weather now  
When the stars come out  
Stop (Stop)  
To count them in the sky

Love California nights  
When I'm walking with you  
Hand in hand by the shore  
Yes I love California nights  
At the beach where we swim  
With the tide rolling in

And there we'll be  
Beneath the midnight sky above  
Just you and me  
And we will whisper words of love  
While the firelight soft- (soft-) ly  
Flickers in the sand

Love California nights  
With the breeze blowin' in  
Time for love to begin  
I would miss California nights  
If I went on my way  
Thinkin' now that I'll stay

Oooh baby  
Love you baby  
Mmm baby-y

Love California nights  
Always close as a kiss  
Nothing's sweeter than this  
And we'll spend California nights  
Always close as a kiss...
