

## We Went So High

Lesley Gore

We went so high  
As if we had no weight  
As if we thought we both could fly

We went so high  
We knew it wouldn't last  
We flew too high we flew too fast

And when you think you're safe and sound  
Anywhere you go from there is down

We went so high  
We left it all below  
We found another place to go

We went so high  
We'll never come so near  
We'll never see it quite so clear

'Cause when you think you're safe and sound  
Anywhere you go from there is down

We went so high  
So high
