## **Make It Back**

Lesley Roy

I was blinded by you I got lost in your eyes too afraid to find you And too late to read the signs To read the signs

I was young and foolish Didn't know how to love Now I see the truth in All that's left undone

Now I know that I need you Only hope is just to see you Scream your name through the silence See your face in the distance

'Cause I'm crawling and falling Whatever I must do to make it back to you

Feel you with me always In everything I do Now a day is dawning We can make it through

'Cause I know that I need you Only hope is just to see you Scream your name through the silence See your face in the distance

'Cause I'm crawling and falling Whatever I must do to make it back

Praying for a second try to be in your arms Now that I have realized just who we are You're the one who makes me feel alive

Now I know that I need you Only hope is just to see you

'Cause I know that I need you Only hope is just to see you Scream your name through the silence See your face in the distance

Now I know that I need you Only hope is just to see you Scream your name through the silence See your face in the distance

'Cause I'm crawling and falling Whatever I must do to make it back to you
