

When I Look At You

Lesley Roy

Everybody knows
Everybody knows
You're the kind of guy
Kind of guy that a girl like me goes for

Everywhere you go
Everywhere you go
People wanna know
Why you're alone hanging out on the dance floor

Ripped up jeans, tattoo sleeves
So James Dean but you got it
'Cause you're so hot
I could die

Cause when I look at you
I wanna get a room
I wanna get a room
Under all that cool
I know you want it too
I know you want it too

What's a girl gotta do
To get you out of her mind
and into the grove?

Cause when I looked at you I knew!

I've been waiting all night
Waiting all night
For the right time
Right sign just so I can finally make a move

Cheesy lines from the wrong guys
Drinking cheap wine wasting time
Til the moment I can get to you

I walk over now we're getting closer
I'm trembling
I see heaven in your eyes

Cause when I look at you
I wanna get a room
I wanna get a room
Under all that cool
I know you want it too
I know you want it too

What's a girl gotta do
To get you out of her mind
and into the grove?

Cause when I looked at you I knew!

I knew I knew

Cause when I look at you

I wanna get a room
I wanna get a room
Under all that cool
I know you want it too
I know you want it too

What's a girl gotta do
To get you out of her mind
and into the grove?

Cause when I looked at you I knew! (3x)
