

# All the Other Fools

Leslie Clio

I don't need a reason, I was right  
Love was just a season, love has died  
Look at what you've done now, I'll get better somehow  
Out here I'll keep walking, you just keep on talking

I get up, I'll go without  
I got no more doubt

All the other fools keep tossing and turning  
I do what I choose, I chose to let go  
All the other fools keep tossing and turning  
I do what I choose, I chose to let go

I don't need a reason for what I've done  
You've been just a season, now ready to run  
Look at what we've done now, gotta use it somehow  
Possibly maybe you're no good for me

I get up, I'll go without  
I got no more doubt

All the other fools keep tossing and turning  
I do what I choose, I chose to let go  
All the other fools keep tossing and turning  
I do what I choose, I chose to let go

Tossing and turning and tossing and turning and  
Tossing and turning

All the other fools keep tossing and turning  
I do what I choose, I chose to let go  
All the other fools keep tossing and turning  
I do what I choose, I chose to let go  
All the other fools keep tossing and turning  
I do what I choose, I chose to let go  
All the other fools keep tossing and turning  
I do what I choose, I chose to let go
